Kauffman Wood,

The Muddy Moose Restaurant & Pub is a wilderness theme restaurant located in the White Mountains of New Hampshire. Customers enter the restaurant through the bar which is filled with log furniture purchased from Kauffman Wood. The furniture is beautiful and has a stunning effect on all that enter. The quality of construction is excellent and the furniture has held up well for eight years under heavy use. We are honored to thank Kauffman Wood for providing us with such a fine product.

Sincerely,

Jim Abraham, President
Muddy Moose Restaurant & Pub
